

## Circuit Protection | RCBOs

## BG RCBOs (Residual Current Breaker & Overload Protection)

BG CUCRB10A 10A Single Pole Type A 6kA Compact RCBO

### General Information

|                      |                               |
|----------------------|-------------------------------|
| Brand                | BG Electrical Accessories Ltd |
| Product Type         | RCBO                          |
| Current Rating       | 10A                           |
| Depth                | 76mm                          |
| Height               | 93mm                          |
| Width                | 17.5mm                        |
| Mounting             | DIN Rail                      |
| Number of Poles      | 1                             |
| Short Circuit Rating | 6kA                           |
| Standards            | EN/IEC 61009                  |
| Trip Type            | Type A                        |
| Pole Configuration   | Single Pole (1P)              |
| IP Rating            | IP20                          |
| Number of Modules    | 1                             |
| Outgoing Terminal    | 16mm squared                  |
| RCD Sensitivity      | 30mA                          |
| C/W Knockouts        | B Curve                       |
| Torque               | 2Nm                           |
| Warranty             | 10 Years                      |
| Voltage              | 230V                          |
